Please provide or attach a brief statement outlining your interest and qualifications for this appointment:

My husband Chuck and I have been energy, conservation and environment conscious since we met years ago in Colorado. Most recently, living in Massachusetts, we retrofitted our 1950s home with solar, heat pumps, a properly insulated roof and triple pane windows to bring the home close to net zero. Putting my past upper management experience to good use, I volunteered to run the Lincoln (MA) Green Energy CFREE Committee, a residential outreach group. The committee became a tight team and had a great time making a difference. Chuck and I moved back to Wisconsin last May to be near our kids. (We previously started a business here and had a home on Green Lake.) Neenah feels like another great place to live and I would like to be involved again with sustainability and make a contribution to local initiatives.
