Discussion of rain barrel project:

Nineteen donated barrels were distributed to residents for use as rain barrels. Because additional residents would like to participate in the program, options are being explored to obtain additional barrels or work with a vendor on the program. Dave Rause will contact potential partners for the program.

Discussion of information and education projects:

Committee member Kent Powley and Kelly Reyer from Winnebago County Solid Waste staffed a booth at Neenah Farm Market on July 19. Additional topics are expected to be presented at future markets.

Faith Technology is interested in discussing opportunities for efficient energy solutions at City facilities.

Members of First United Methodist Church of Neenah-Menasha are pursuing sustainability projects. They are working with a company to collect items with lithium batteries for recycling and are interested in discussing opportunities for collaboration with SNC. Dave Rause will gather more information about the project.
